

5. How can the customer access or book this transport?

Mr F would contact his local community car scheme. A co-ordinator would take his details and arrange suitable transport which meets his needs. Mr F would be informed of the approximate cost at the time of booking.

Community car scheme transport has to be arranged in advance so that a volunteer driver can be found.

There are many community car schemes covering the whole of Fenland. To find details of one in your area you can call our Community Transport Officer on 0345 0451 151 (lo-call) or download a leaflet at: www.fenland.gov.uk/article/2715/Community-Car-Schemes

Leaflets can also be found in the Fenland @ your service shops, GP surgeries and libraries. Alternatively phone Fenland District Council on 01354 654321 and we will post you the relevant information.

6. Other Transport Options

For details of other transport options that are available in Fenland you can pick up a copy of the Fenland Transport Directory from any of our Fenland @ your service shops.

County Council

Fenland District Council

This leaflet forms part of a series of case studies which aim to give information on a variety of transport related situations.

This case study focuses on the transport requirements of someone who has difficulties attending hospital appointments due to lack of available transport. The aim of this case study is to address the needs of people in this situation.

Cover photograph is for illustrative purposes only

1. Introducing Mr F

Mr F lives in March. He is an elderly man who does not have access to a car and regularly attend hospital appointments at Hinchingsbrooke Hospital in Huntingdon. He is able to use public transport but due to cuts in bus services he has started to make the journey by taxi instead. He is not aware of any other transport options that are available. His only income is his state pension which provides him with a limited budget.

2. Understanding the needs of Mr F

The specific transport needs and challenges of Mr F are:

- There is no direct bus service to Hinchingsbrooke Hospital
- Mr F does not have access to a car
- Affordable transport

3. Transport options and their suitability

The specific issues for Mr F in respect of each transport option are:	
Options	Comments
Bus	<ul style="list-style-type: none">• There are only 4 bus services each way per day between March and Huntingdon• Mr F would need to change buses at Huntingdon to get to the hospital• It would also mean a long wait for Mr F who is an elderly man• Would not be able to attend early/late appointments due to lack of bus service
Taxi	<ul style="list-style-type: none">• Cost
Dial A Ride	<ul style="list-style-type: none">• This service does not operate from March to Hinchingsbrooke Hospital in Huntingdon
Community Car Scheme	<ul style="list-style-type: none">• Driver can stay with customers during their hospital visit if requested• Driver can wait to bring Mr home• Door to door service
NHS Patient Transport	<ul style="list-style-type: none">• Has to be booked through his GP• NHS criteria must be met

4. Transport option to address the customer's needs

The community car scheme is the best option for Mr F because:

- The driver is able to stay and assist while he visits the hospital
- The driver will also stay during the appointment to bring him home afterwards
- Mr F will have peace of mind knowing that his transport needs are catered for before he sets off for their appointments
- The cost of the journey is subsidised by Cambridgeshire County Council and therefore assists him financially as he has a limited budget.
