Fenland District Council Statement in response to Matter 15: The Historic Environment

ISSUES and QUESTIONS

Q1 – The NPPF refers to the significance of heritage assets? Is the current wording of Policy CS18 consistent with NPPF?

In short, no.

To make the policy wording of CS18 – The Historic Environment consistent with the NPPF minor amendment MPC/6/005, as set out in CD002(a), is proposed. Specifically, this amends the policy wording to refer to the ‘significance’ of a heritage asset.

English Heritage has confirmed its agreement with this proposed amendment.
