

Fenland District Council Core Strategy – Inspector Note

Re: Gypsy and Traveller Accommodation Needs Assessment (GTANA)

Could the Council please provide the Inspector with details of the planning permissions for the four sites referred to in the GTANA where unimplemented planning permissions for Gypsy and Traveller pitches amount to a total unimplemented supply of 19 pitches.

Could the Council please ensure that someone will be available at the Hearing Session relating to the Inspector's Matter 5 to discuss the methodology used in the GTNAA.

In particular, the Inspector would like to establish:

- What assessment has been carried out of those gypsies and travellers living in bricks and mortar who would prefer to live on a pitch?
- Why overcrowding on private pitches has not been included as part of the existing 'need'?
